

# ENVIRONMENTAL SERVICES

---

Mitchel Hanlon Consulting is a leading environmental and planning consultancy firm with a team of experienced environmental scientists dedicated to the highest professional standards.

Our team offers a broad range of technical skills combined with years of experience and extensive knowledge of policy and regulatory requirements. The team understands the importance of delivering timely and cost-effective services that are essential for project approval.

At Mitchel Hanlon Consulting, we embrace a culture of innovation, communication and teamwork. We pride ourselves on our commitment to best practice and sustainability principles.

We have an extensive range of clients in both the public and private sectors.

Our services include but are not limited to:

## Wastewater Management

We provide specialist services relating to the assessment of sustainable on-site wastewater disposal and on-site management. The team is experienced in the preparation of on-site wastewater disposal assessments that conform to the planning and environmental protection requirements of both state and local governments.

## Land Contamination Assessment

Our environmental team provides expertise relating to both the assessment and remediation of contaminated land. We also provide assessment services relating to due diligence reporting, risk assessment and pre-purchase inspections of all land types ranging from green field sites to industrial lands. We possess sound knowledge of modern land remediation techniques that provide you with the most cost-effective solutions.

## Bushfire Hazard Assessment

Mitchel Hanlon Consulting provides specialist services relating to the assessment of bushfire hazards and the effects bushfire may have on your property or potential subdivision. We are experienced in the preparation of bushfire hazard assessments that conform to authority planning requirements, ensuring you gain approval for your bushfire-prone development.

## Environmental Impact Assessment

The team at Mitchel Hanlon Consulting provides diverse specialist services to satisfy the primary requirements of environmental impact assessments. Whether you require a Review of Environmental Factors, a Statement of Environmental Effects or an Environmental Impact Statement, we can provide you with the necessary expertise to get the job done.
