

SURVEYING AND LAND INFORMATION SERVICES

Mitchel Hanlon Consulting provides a wide range of surveying services. We specialise in land and engineering surveying and utilise the latest survey equipment and software. Our well-trained staff utilise our ISO 9001:2008 certified quality assurance system.

We contract to many public, private and individual clients. Our particular speciality is project surveying for major infrastructure projects such as railways, roads, commercial and public buildings, bridges and subdivisions.

Our Capabilities

Our experience and equipment allows us to provide a diverse range of surveying services including, but not limited to the following:

- Land subdivisions
- Community development
- Strata subdivisions
- GPS surveys
- Geodetic surveys
- Rail surveys

- Construction surveys
- Cadastral reports
- Land information
- Land inventory and analysis
- Laser scan surveys
- Hydrographic surveys

Our Reputation

Mitchel Hanlon Consulting has an award-winning surveying team that has a reputation for continually delivering results within budget.

Our Strength

The surveyors at Mitchel Hanlon Consulting have a combined industry experience of more than 90 years. Our team members have multidisciplinary skills with experience in local government, the development industry and expertise in engineering design and project management.

We have a strong presence in the development industry road and rail sectors with the ability to provide multiple field parties.
